Election Restriction

1. The Art Unit location of your application in the USPTO has changed. To aid in correlating any papers for this application, all further correspondence regarding this application should be directed to Art Unit 1652.

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-18 are drawn to a secretory or membrane binding chimeric protein.

Group II, claim(s) 9-12 are drawn to a polynucleotide encoding the secretory or membrane binding chimeric protein.

Group III, claim(s) 13 is drawn to a method for measuring a gene transcription.

Group IV, claim(s) 14-16 are drawn to a method for screening a drug.

3. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: because Groups I-IV lack a special technical feature,

Art Unit: 1652

for example, Groups I and II consists of a protein and the encoding DNA, respectively, and such is common of any DNA. Further, the methods of Groups III and IV neither make nor use the first product. Under PCT rule 13.1 applicant is entitled to the first product, method of using and making said product. Thus, these inventions are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
